A310 Aircraft Guide - 1x1px.me

The A310 helped pioneer the use of composites in commercial jetliners, with its vertical stabiliser built with carbon-fibre materials that offer significant weight savings over conventional metallic structures. Other major applications of composites on the A310 include floor struts and panels, spoilers and main landing gear doors.

A310 - Previous Generation Aircraft - Airbus

The Airbus A310 Multi Role Tanker Transport (MRTT) is an aerial refueling tanker aircraft based on the civilian Airbus A310. Previously, the A310 has been operated as a pure transport aircraft.

Airbus A310 MRTT - Wikipedia

Airbus A310-300. The Airbus A310 is a medium to long-range twin-engine wide-body jet airliner. Extra fuel tanks and improved aerodynamics give the A310 an excellent fuel capacity and range. Its spacious cabin can accommodate up to 280 passengers in comfort. The aircraft is an excellent choice for charter customers who wish to carry large groups of passengers and their baggage over a long distance.

Airbus A310-300 Charter Guide - Anglo European

This Airbus A310-300 has 244 seats in a two-class configuration. There are 12 seats in Club Class and 232 seats in Economy Class. Club is Air Transat's Business Class.

SeatGuru Seat Map Air Transat

Aircraft Summary The Airbus A310-300 is a short- to a medium-range wide-body twin-engine jet airliner that was developed and manufactured by Airbus. The aircraft is capable of transporting up to 280 passengers.

Airbus A310-300 – ProCharter - Global Aviation Solutions

While based on the larger A300, the A310 introduced a number of major changes. The fuselage was shortened by 13 frames compared to the A300B, reducing seating to around 200 to 230 passengers and a new higher aspect ratio wing of smaller span and area was developed.

Airbus A310 - Airliners.net

The A-310 is an ideal aircraft for outsized loads. This aircraft, like many cargo airliners, requires a main deck high-loader to load and unload cargo on the main deck, so cannot fly into certain remote airports that do not have this equipment.

Airbus A310-300F - Air Charter Service

The second generation Airbus wide body aircraft is clearly a derivative of the A300: the general appearance is the same. This includes the typical last cockpit window with the cut-off top corner. Furthermore the row of cabin windows on the rear fuselage, towards the tail cone, appears to be curved up compared to the rest of windows.

Airbus A330 - Aircraft Recognition Guide

Three former Singapore Airlines Airbus A310-222 (9V-ST1/J/K) were leased by Middle East Airlines in the mid-1990s. 3B-STJ made its first flight 15.10.1984 and was delivered to Singapore Airlines on 28 November 1984. After thirteen years with Singapore Airlines it was leased to MEA Middle East Airlines.

Aircraft History – Airbus A310 – Frankfurt Aviation Friends

The Airbus A310 Zero-G aircraft generally executes 31 parabolic manoeuvres during flight. From a steady horizontal flight, the aircraft gradually pulls up and starts climbing to an angle of approximately 50 degrees.
