Clavaria is a genus of fungi in the family Clavariaceae. Species of Clavaria produce basidiocarps (fruit bodies) that are either cylindrical to club-shaped or branched and coral-like. They are often grouped with similar-looking species from other genera, when they are collectively known as the clavarioid fungi.

Clavaria - Wikipedia

In his monograph of the Sapotaceae (1904), however, he includes *Sider-oxylon grandiflorum* (= *C. major*) and gives Mauritius as its locality, but does not refer to
