Consensus Guidelines for Abnormal ...

The Society of Gynecologic Oncology and ASCCP endorse this document. On August 21, 2018, the U.S. Preventive Services Task Force (USPSTF) published its final recommendation statement 1 on cervical cancer screening in average-risk women Table 1. The major change from the 2012 USPSTF guidelines is that for average-risk women aged 30–65 years, the USPSTF now recommends high-risk human papillomavirus (hrHPV) testing alone every 5 years as an alternative to screening with cervical cytology ...
