Active Listening - What You Need to Know
 Active listening is a fundamental part of interpersonal communication skills. It's an active process in which a conscious decision is taken to listen to another person and understand what's being said. American psychologists Carl Rogers and Richard Farson came up with the concept of Active Listening in 1957.

Active Listening, a part of interpersonal communication ...
 Active Listening is about suspending our own thought processes and making a conscious effort to understand another person's position. Using our body language, eye contact, and where appropriate, verbal cues - short questions or comments - we can help the speaker formulate their thoughts and reassure them they are being listened to.

Active Listening - Seeds for Change
 AEL is an acronym for Active-Empathetic Listening. Traditionally, it is a form of listening practiced by salespeople. One study looked into the reliability and validity of an AEL scale, which measures the client's perceptions of the listener and includes a self-assessment of the listener.

Active Listening: Why Empathetic Conversation Matters
 Active listening is a technique that is used in counseling, training, and solving disputes or conflicts. It requires that the listener fully concentrate, understand, respond and then remember what is being said. This is opposed to other listening techniques like reflective listening and empathic listening.

Active listening - Wikipedia
 Active listening is a technique often taught by therapists and counsellors but it can help you in all aspects of your life, from work to school to your personal relationships. It is the act of fully concentrating on what is being said, understanding it, responding to it if applicable, and then remembering it in the future.
