Amazon.com: adjustable air shocks for trucks

KONI is the premier manufacturer of performance and adjustable shocks in the world. KONI shocks are made from the highest quality raw materials and machined to the tightest tolerances. KONI has taken shock absorber performance and comfort to the next level with patented Frequency Selective Damping) technology.

KONI | Index

Since the shock controls the motion of the spring, increased spring rates require more rebound damping for control and that is one of the reasons why KONI's are rebound adjustable (and some are double adjustable). Using higher rate springs with OE or soft shocks will very quickly overcome and wear out the shocks.
