The case studies that administrators of all kinds have to handle on a daily basis were fascinating, even though they did give me anxiety while reading when thinking I might have to deal with these situations in the future. There was a lot of theory around how administrators solve problems with various methods in order to do so.

Administrative assistants are often expected to fix anything that goes wrong at work, including technical difficulties with the printer, scheduling conflicts, internet connectivity problems, clogged toilets, messy break rooms, and so on. Not only are they expected to be jacks-of-all-trade, but administrative assistants often bear the brunt of the blame for whatever goes wrong—even if they aren't the cause of the problem.

~~5 Common challenges administrative assistants face (and ...~~

Use the IDEAL problem solving model to ensure you are solving the right problem, says Lindsay Taylor At times, being an Assistant can be extremely challenging. If you're the 'go to' person when things go wrong then you can feel under immense pressure to deliver and "save the day". So how do you go aboutRead More
