With sincere thanks from all of us at Microwave Advances SERVICES We offer over 30 years of experience in the telecommunications radio repair and design fields, including microwave component design for those radios that need parts no longer available.

*Front Page - Microwave Advances*

Although initiated by military purposes during the Second World War (RADAR, Radio Detection and Ranging), microwave and high frequency utilisation has spread over almost every important aspect of normal day life since then, from individual mobile phones and kitchen microwave ovens to industrial food processing, production of composites as sustainable building materials, green chemistry, medical applications and finally infrastructure installations like GPS and Galileo, to name only a few examples.
