He was also a popular science writer and wit, described by the acclaimed zoologist and science writer Stephen Jay Gould as “the cleverest man I have ever known”. One of his most influential books was Advice to a Young Scientist, published in 1979, which is an encapsulation of Medawar’s thoughts on what makes a good scientist. He deflates the myths of solitary genius or superiority, arguing instead for common sense and an inquiring mind, but not mere curiosity.
