~~Cardiovascular And Pulmonary~~

~~Physical Therapy~~

If you've experienced an injury or disease that has affected your heart or lungs, cardiovascular and pulmonary physical therapy can help with the rehabilitation process.

Cardiopulmonary physical therapy helps patients improve cardiovascular (heart) and/or lung health. The goal of cardiopulmonary rehab is to help patients maintain and recover lung function while also strengthening their cardiovascular system.

~~Cardiovascular and Pulmonary Physical Therapy — E-Book ...~~

Overview: The program is designed to provide residents with a year-long intensive study of cardiopulmonary physical therapy, preparing them to sit for (and pass) the Cardiovascular and Pulmonary Clinical Specialist Examination offered by the American Board of Physical Therapy Specialties. Clinical time during the residency, which includes structured one-on-one mentoring, is provided for 75-80% of a typical week.
