Definition of Case

Management. Case

Online Library

Case

management is a collaborative process that assesses, plans, implements, coordinates, monitors, and evaluates the options and services required to meet the client's health and human service needs. It is characterized by advocacy, communication, and resource management

Online Library

Case

and promotes quality
and cost-effective
interventions and
outcomes.

What is Case

Management? Case

management is a

process that strives to

achieve a specific

objective by handling

cases from beginning to

end under the

coordination of a case

manager. This can

involve a number of

different teams, as well

Online Library

Case

as a variety of processes. To understand this better, let's look at the medical and legal professions and how they use case management.
