4. Translation 5. Protein deoxyribose sugar Double- stranded Transcription Label the parts on the lines below. 1. A transcription complex consisting of RNA polymerase and other proteins recognizes the start site of a gene and begins to unwind the DNA 3. The growing RNA strand hangs freely as it is transcribed and detaches completely once

Name: Class: Date: - BIOLOGY 2013-2014
Experiments have shown that almost all habitual cues fall into one of 5 categories; location, time, emotional state, other people, immediately preceding action. So write those categories down and answer them whenever the urge hits, and each time it hits. The one (or more) that remain consistent are likely to point to the cue. Step 4 is to have a plan. The plan is simply to then think ahead and figure out what your choices are when the cue occurs, what routine you might follow to still ...
