Violence

Many children exposed to violence in the home are also victims of physical abuse. 1 Children who witness domestic violence or are victims of abuse themselves are at serious risk for long-term physical and mental health problems. 2 Children who witness violence between parents may also be at greater risk of being violent in their future relationships. If you are a parent who is experiencing abuse, it can be difficult to know how to protect your child.

Children's Perspectives on Domestic Violence - Kindle ...  
Abstract. There is a large body of research on the impact of domestic violence and abuse (DVA) on children, mostly reporting survey data and focusing largely on psychological outcomes. Qualitative research on the views of children has the potential to enable a child-centered understanding of their experience of DVA, so their needs can be better met by professionals.
