science is an ever-changing beast! New packages, models, tools and platforms are constantly being released. It is easy to get caught up in these developments and neglect the stable best practices that endure independent of these changes.

## ~~25 Data Science Best Practices to Deliver Ongoing ...~~

Information visualization is a language. Like any language, it can be used for multiple purposes. A poem, a novel, and an essay all share the same language, but each one has its own set of rules. The same is true with information visualization: a product manager, statistician, and graphic designer each approach visualization from different perspectives. Data at Work was written with you, the ...

I think Data at Work was the best of the  
three, with a strong overview of perception  
and information theory combined with a wide  
range of practical guidelines and examples.  
Few's book is massive and comprehensive, but  
generally too detailed to be easily  
approachable.

~~Data at Work: Best practices for creating  
effective charts ...~~

However, in order to establish a successful  
storage and management system, the following  
strategic best practices need to be followed.  
1) Scale for tomorrow's data volumes. The  
amount of data available is vast, and it's  
only growing by the day. You'll need to  
consider how your data lake will handle  
current as well as future data projects.

~~5 Data Lakes Best Practices That Actually  
Work — Talend~~

It's a best practice to define the scope of  
your query as to what it should do and what  
it should account for in terms of structure,  
layout, column names, data types, and any  
other component that you consider relevant to
