This kit contains a powerful combination of an Intel® Core™ processor, Intel® Processor Graphics, and an Intel Movidius Myriad X Vision Processing Unit (VPU) for high-performance, low-power AI workloads. The three hardware engines run a diverse range of AI workloads to deliver a comprehensive breadth of raw AI capability for mobile PCs.

Development Kit Myriad - rancher.budee.org

The Reference Development Kit (RDK) provides a highly flexible platform for digital designers and software developers, enabling them to create wireless systems without the need for RF design skills. It also serves as a reference model to accelerate the creation of complementary boards and integrated solutions.
