Dreaming In Code Two Dozen

Yet the art of creating it continues to be a dark mystery, even to the experts, and the greater our ambitions, the more spectacularly we seem to fail. Dreaming in Code: Two Dozen Programmers, Three Years, 4,732 Bugs, and One Quest for Transcendent Software sets out to understand why, through the story of one software project -- Mitch Kapor's Chandler, an ambitious, open-source effort to rethink the world of e-mail and scheduling.

Dreaming in Code

"Dreaming on Code" are two books mixed together into one. One of the books is the observation of the author of a multi-year high-profile software development project. The project eventually failed, but that wasn't clear yet at the end of the book. The second book is the authors search for better ways of developing software.
