Porsche 911 (964) Parts

A new naturally aspirated engine called the M64 was used for 964 models, with a flat-6 displacement of 3.6 litres. Porsche substantially revised the suspension, replacing torsion bars with coil springs and shock absorbers. Power steering and ABS brakes were added to the 911 for the first time; both were standard. The exterior bumpers and fog lamps became flush with the car for better ...

Porsche 964 Parts. Introduced in 1988 the Porsche 964 was a leap in the 911 model range. The old 911 3.2 with the iconic shape ceased production and the 964 was its replacement. The 964 was a more modern looking and feeling car. It had plastic bumpers and more rounded shape, and not to everyones taste it lost the trademark “duck tail” and ...

Rennline Tubular Engine Carrier. Fits: Porsche 964 Porsche 993 One of the only weak points on the 964 and 993 chassis is the engine carrier. When these models are tracked, or are fitted with stiffer than stock engine mounts, the engine carrier is known to bend, crack, or even break cleanly away from an engine mount in response to increased ...

Buy Porsche 993 (911) (1994-1998) Engine Mounts | Design 911

Despite efforts to replace the air-cooled, rear engine car with more popular, contemporary front engine, rear drive platforms, buyers insisted that the 911 continue, and Porsche did not disappoint with the 964. Power was provided by an air-cooled boxer-type six cylinder engine that was rear mounted. Substantial styling changes gave the new 964 a fully modern appearance, while retaining the ...
