Engine Settings Nissan Vg30 - happybabies.co.za

Perhaps the hottest combo for older vehicles like ours equipped with the VG30 is using the block from the bigger bored VG33. This is especially good for a post 87 engines with the better cylinder heads although the VG33 heads feature 10 mm exhaust manifold studs, which is good as the older engines 8mm studs, are very prone towards breakage.

Found in the 1990 to 1996 Nissan 300ZX twin turbos, the Nissan VG30DETT is a robust, sturdy engine right out of the box. The VG30DETT like many Japanese engines of the era is pretty stoutly overbuilt in stock form, making it an excellent candidate for wringing high power levels out of it. In its time, the engine was a work of art, featuring aluminum heads with 2 quench pads per chamber, a 45 degree included angle pent roof combustion chamber and two overhead cams per cylinder bank.
