Enterprise Governance of Information Technology: Achieving ...

Going well beyond the implementation of a superior IT infrastructure, "Enterprise Governance of Information Technology" is about defining and embedding processes and structures throughout the organizations that enable both business and IT people to execute their responsibilities, while maximizing the value created from their IT-enabled investments.

Enterprise Governance of Information Technology: Achieving ...

At the forefront of the field, the authors of this volume draw from years of research and advising corporate clients to present a comprehensive resource on enterprise governance of IT (EGIT). Information technology (IT) has become a crucial enabler in the support, sustainability and growth of enterprises. Given this pervasive role of IT, a specific focus on EGIT has arisen over the last two decades, as an integral part of corporate governance.

At the forefront of the field, the authors of this volume draw from years of research and advising corporate clients to present a comprehensive resource on enterprise governance of IT (EGIT). Information

technology (IT) has become a crucial enabler in the support, sustainability and growth of enterprises. Given this pervasive role of IT, a specific focus on EGIT has arisen over the last two decades, as an integral part of corporate governance.

Enterprise Governance of Information Technology | SpringerLink

The previous chapter provided a high-level description of the "Enterprise Governance of IT (EGIT)" concept. This second chapter starts with discussing the genesis and evolution of EGIT, both in academic research and practice. Then, this chapter introduces mechanisms that can be used to implement EGIT in practice.

Going well beyond the implementation of a superior IT infrastructure, enterprise

governance of IT is about defining and embedding processes and structures throughout the organization that enable boards and business and IT people to execute their responsibilities in support of business/IT alignment and value creation from their IT-enabled investments.

Enterprise Governance of Information Technology ...

The third revised edition of Enterprise Governance of Information Technology provides professionals and students with the most recent research advancements as well as an in-depth discussion of the recently-introduced Control Objectives for Information and Related Technologies (COBIT) 2019 framework which can be used to facilitate a tailored implementation of effective EGIT.

Enterprise Governance of Information

Enterprise governance of IT is a relatively new concept that is gaining traction in both the academic and practitioner worlds.

Enterprise Governance of Information Technology | SpringerLink

Information technology governance is a subset discipline of corporate governance, focused on information technology and its performance and risk management. The interest in IT governance is due to the ongoing need within organizations to focus value creation efforts on an organization's strategic objectives and to better manage the performance of those responsible for creating this value in the best interest of all stakeholders. It has evolved from The Principles of Scientific Management, Total

technology - Wikipedia

Techopedia explains Information Technology Governance (IT Governance) IT governance is a broad concept that is centered on the IT department or environment delivering business value to the enterprise. It is a set of rules, regulations and policies that define and ensure the effective, controlled and valuable operation of an IT department. It also provides methods to identify and evaluate the performance of IT and how it relates to business growth.

Enterprise Governance of Information Technology: Achieving ...

In the Governance, Risk and Compliance market, there are plenty of point solutions for Risk and Compliance, but there is a lack of attention paid to Governance solutions. Governance is the practice of raising the right information to the right leaders, board and stakeholders so they can ask the right questions and steer organizations.
