Environmental Systems and Societies (ESS) is a college-level introduction to ecology, which overlaps significantly with the IB Geography syllabus. It is science applied to ideas presented in geography, economics, and TOK.

IB ESS - MKramerScience.com

IA Overview. The most important aspect of the environmental systems and societies course is hands-on work in the laboratory and/or out in the field. The syllabus not only directly requires the use of field techniques, but many components can only be covered effectively through this approach. Practical work in this subject is an opportunity to gain and develop skills and techniques beyond the requirements of the assessment model and should be fully integrated with the teaching of the course.

Environmental Systems And Societies Assessment My site

Environmental Systems and Societies (ESS) ESS is offered only at standard level (SL). As an interdisciplinary course, ESS can count as either a Group 3 or a Group 4 course.
