This text will help future teachers develop the understanding and tools they need to work with others to give children a better education.

Families, Schools, and Communities: Building Partnerships ...

Families, Schools, and Communities: Building Partnership for Educating Children, 5th Edition is a book that I borrowed from a friend that used it as a college text. I read the chapters on Family Diversity, Roles and Experiences of Parents and Establishing and Maintaining Collaborative Relationships completely and the rest of the book I read parts of each chapter to help me with building better parent relations of the children that I teach.

Just Schools examines the challenges and possibilities for building more equitable forms of collaboration among nondominant families, communities, and schools. The text explores how equitable collaboration entails ongoing processes that begin with families and communities, transform power, build reciprocity and agency, and foster collective capacity through collective inquiry.

Just Schools: Building Equitable Collaborations with ...

The family provides physical, social, intellectual, spiritual and emotional environments. In the early growing years, the home environment has the greatest influence on the child's development. The culture of the family, the physical space wherein the family operates, plus routines, interests, skills, family outreach, and interpretations of events provide parameters for what children will learn.
