Book Review: Growing Up Digital: The Rise of the Net ...  
GROWING UP DIGITAL: The Rise of the Net Generation by Don Tapscott is an examination of the first generation to be bathed in bits since birth. These 88 million children of the baby boomers in the U.S and Canada are combining demographic muscle and digital mastery to become a force for social transformation. In a nutshell, because of their access to the digital media these young people learn, work, think, shop and create differently than their parents.

Growing up in the digital age – Think Magazine

The increase in social media use over the last decade has, of course, come together with a large increase in the amount of time that people spend online. In the US, adults spend more than 6 hours per day on digital media (apps and websites accessed through mobile phones, tablets, computers and other connected devices such as game consoles).
