The TV Ratings Guide

The MICHELIN Guide conveys its restaurant reviews through two to three-line short summaries and an extensive system of symbols, the most revered of which are its globally renowned MICHELIN Stars. Restaurants may receive zero to 3 stars for the quality of their food based on five criteria: quality of the ingredients used, mastery of flavor and cooking techniques, the personality of the chef in his cuisine, value for money and consistency between visits.

What The MICHELIN Guide's Symbols Mean

The summary Rating takes account of the performance of the specification for each of the environmental impacts, and the fact that some impacts are assigned more importance than others. Those with A+ ratings will have the lowest overall environmental impact, followed by A, then B, C, D and E; with E being the worst performance overall.

Today any movie commercially released in America features a rating. The rating is comprised of the rating symbol (G, PG, PG-13, R, or NC-17) along with a brief description of why the film received that rating. Common reasons cited are violence, language, nudity, sexuality, drug use, and adult situations, but that list is far from comprehensive.
