IEEE citation style is used primarily for electronics, engineering, telecommunications, computer science, and information technology reports. The three main parts of a reference are as follows: • Author ' s name listed as first initial of first name, then full last. • Title of article, patent, conference paper, etc., in quotation marks.

How to Cite References: IEEE Documentation Style

IEEE publications must list names of all authors, up to six names. If there are more than six names listed, use the primary author ' s name followed by et al. For non-IEEE publications, et al. may be used if names are not provided. All references, except those ending with URLs, will end with a period, including those with a DOI.
