Innovation in a crisis: Businesses respond to Covid-19

A crisis, such as the financial and economic crisis that we have been experiencing over the last couple of years, can be either an opportunity for important new innovation in our economic and financial institutions and methods, or a time of setback when innovation is delayed, or even reversed. We have to make the former happen. There is still time.

Innovation is profoundly shaping the future of European cities. The COVID-19 pandemic has impacted society in Europe in countless ways, well beyond the obvious healthcare crisis. Even the extensive measures at all levels of government cannot shield society from the ravages of COVID-19, and the economic, social and psychological impact of the pandemic will be with us for years to come.
