ISO 32000-1: 2008 - PDF 1.7 describes a computer file format used for information interchange among diverse products and applications on multiple platforms. Adobe owns patented technology disclosed in this international standard specification.

~~Adobe Systems Incorporated ISO 32000-1: 2008 - PDF 1~~

Adobe Systems Incorporated provides access both to its original PDF Reference 1.7 and the variant document that was approved as ISO 32000-1:2008. The latter was re-organized and re-formatted in line with ISO guidelines. The number of functional differences are assumed to be small, since Adobe describes the specifications as "matching."

~~PDF, Version 1.7 (ISO 32000-1:2008)~~

ISO 32000-1 currently supports a subset of XHTML for use in "Rich Text Strings" (12.7.3.4) for both annota- tions and form fields. A common use for such a field is to incorporate links (either entered by the author or by a future editor), but while such links may be specified by URI, the links are not treated as active.

~~Adobe® Supplement to ISO 32000-1~~

PDF was a proprietary format controlled by Adobe until it was released as an open standard on July 1, 2008, and published by the International Organization for Standardization as ISO 32000-1:2008, at which time control of the specification passed to an ISO Committee of volunteer industry experts.
