ThinkSystem SR950 is designed for your most demanding, mission-critical workloads, such as in-memory databases, large transactional databases, batch and real-time analytics, ERP, CRM, and virtualized server workloads. The powerful 4U ThinkSystem SR950 can grow from two to eight second ...

~~ThinkSystem SR950 Datasheet > Lenovo Press~~

Needless to say my S720 is the earlier model with the GX-217GA. Under the RAM is a label identifying the board as a D3313-B13 GS1. I'm not sure how you distinguish externally between the two models. The datasheet is no help. A search with Google found mention of various item model numbers for the different processor types:
