The DIY hologram pyramid is a simple device that can be made by manipulating a sheet of plastic into the shape of a pyramid with its top cut off. The device creates a 3D-like illusion for the viewer and makes an image or video appear as if it were in midair. It works on the principle of Pepper's Ghost. Four symmetrically opposite variations of the same image are projected onto the four faces of the pyramid.

How to Make a 3D Hologram Pyramid for Your Smartphone ...

To make a holographic illusion pyramid, draw a flat-topped pyramid on a piece of graph paper. Cut off the sides of a CD case and trace your template on the case 4 times. Next, cut out your templates and tape them together. Stand your pyramid on the bottom edge, and create the corners and creases by bending the sections where you applied the tape.

How to Make a Holographic Illusion Pyramid: 11 Steps
It's very easy to make a pyramid by yourself. The main fact is that we need just organic glass and a few instruments to make it. Make a hologram on your own and surprise your relatives with this brilliant result!

Make a plastic pyramid using an isosceles trapezoid shape and you can convert a smartphone or tablet into a "holographic" projector. The plastic reflects an image off of a surface to create an illusion of a 3D object floating in physical space. Turn up the screen brightness setting on your tablet and give it a go!
