Mammal Species of the World | Johns Hopkins University ...

The total sum of species by families was 4,631, an increase of 2 with respect to the actual 4,629 species (as from orders). Medellín (1995) noted this, but attributed it to errors in the number of Sciurognathi rodent and mustelid species. However, the error was actually in the number of bat species, which is 925.
