Since the 19th century, men have taken part in significant cultural and political responses to feminism within each "wave" of the movement. This includes seeking to establish equal opportunities for women in a range of social relations, generally done through a "strategic leveraging" of male privilege. Feminist men have also argued alongside writers like bell hooks, however, that men's liberation from the socio-cultural constraints of sexism and gender roles is a necessary part of feminist activ

equal rights before the law, and for misogynist corruption to cease, so the rights on paper can be reflected in reality.

What do feminists think of men? - Quora

Feminism seeks to achieve equal treatment and opportunity for women and men in order to achieve similar opportunities across different fields of work and culture and equal respect in a variety of roles. Feminists theorists often explore the concepts with regard to which of women's experiences are taken as normative: Do women of different races, classes, age groups, etc. experience inequality in significantly different ways or is the common experience as women more important?
