NOTE: Engines equipped with the Gen II Cool Fuel System

MerCruiser's Cool Fuel Modules have reportedly been plagued with problems since they were introduced. In 2009, a new gen version was released which changed the Cool Fuel housing design to utilize screw-in plastic fittings to which the raw water cooling hoses attach. The threads tapped into the aluminum housing extend much further into the housing than the plastic fittings, however, leaving a section of the threading that is exposed to raw water.

MerCruiser (Mercury Marine) Cool Fuel Module Defect

According to my serial number listed above and the mercury website: it is located on top of the fuel pump cap on the cool fuel module. (mercruiser 892681). Does anyone know if my fuel pump cap and regulator come off easy and can it be done while still attached to the engine?

Cool Fuel Module Gen 3 failure symptoms | Boating Forum

The early model 'Gen 3 Cool Fuel Module' that many of us have on our sterndrive Searays has major design issues, and not just the issue of corrosion at the raw water coolant lines that Frank W posted a while back. A larger issue concerning the fuel itself. It seems that there is a known paint delamination issue with the inside of the module where the paint peels off the casting and clogs the fuel passages, high and low pressure fuel pumps, and fuel regulator.

MerCruiser Cool Fuel Boat Parts | Boat Parts & Inventory

The Gen III cool fuel module on 2005 and newer V8 MPI Bravo & Inboard models was designed to be easier to service the pumps, quieter in operation, and easier to winterize. Not so convenient to change the filters or replace the seawater pump impeller though.

Cool Fuel Module - Boat Talk - Chaparral Boats Owners Club

The bracket that holds the fuel module mounts on studs that attach the port front motor mount. There is a plastic cover that snaps on and then a plate to remove that holds the fuel pump and cooler in place. I have cooling water in and out, 3 fuel connections and a vacuum line to the regulator and electrical connection to the fuel pump.
