Engine Trouble Code -
Ford Mustang ...

P1000 is a manufacturer specific trouble code. In the case of Ford vehicles manufactured by Ford (including the Ford Mustang), it indicates

Download Ebook Mustang 2007 Diagnostic

that the OBD-II monitor testing has not been completed. This often occurs when the trouble codes have been reset, or the battery has been disconnected/replaced. Auto manufacturers are required to have their OBD-II equipped vehicles run through a series of diagnostic tests on their readiness
