Natural Resources and Conflict

Disputes over natural resources – such as land, fresh water, minerals or fishing rights – are ubiquitous. When resolved peacefully, as is most often the case, such disagreements are an essential part of progress and development. However, resource disputes can also trigger violence and destruction, particularly in states with weak governance, high levels of corruption, and existing ethnic and political divisions.

Natural Resources and Conflict in Africa: The Tragedy of ...

Natural Resource Conflicts From water to gold, farmland to forests, the earth's resources often fuel human conflict. An individual fights with his neighbor over property while a whole community combats a corporation mining in their area. We work with both parties to find a common ground solution – one that meets everyone's needs.
