Mommy's Baby Guide: Newborn Bundle of Joy

By the time your baby is 2 weeks old, you'll probably notice their eyes following your face or a colourful object held about 20cm away. If they don't seem to be doing this, mention it to your health visitor or GP. Your newborn's eyes may roll away from each other occasionally. This is called a squint and is normal in a newborn. It should go away by 3 months.

Expressing milk means squeezing milk out of your breast so you can store it and feed it to your baby later. You might want to express milk if: you have to be away from your baby, for example, because your baby is in special care or because you're going back to work; your breasts feel uncomfortably full (engorged); your baby is not able to latch or suck well, but you still want to give them ...

She has a painful reaction to the baby kicking her kidneys a couple times, so she holds her breath in retaliation. Another brief scene, but she still seems pretty big. Episode 11 has another flashback to pregnant Joy, where she gets woken up by one of Earl's friends, has mood swings due to hormones, then goes back to bed.
