Over the years I have found many aircraft parts in airbase dump sites. Having a manual handy to track down exactly where the parts are from is always extremely useful. Part codes and manufacturer inspection stamps are all well and good, but sometimes it is nice to know exactly where a part fits in an aircraft, rather than just knowing which aircraft it has come from.*

The North American Aviation P-51 Mustang is an American long-range, single-seat fighter and fighter-bomber used during World War II and the Korean War, among other conflicts. The Mustang was designed in April 1940 by a design team headed by James Kindelberger of North American Aviation (NAA) in response to a requirement of the British Purchasing Commission.
