### Plastic IC Package Information—Diodes Incorporated

The tape is wound and shipped on reels. The table and diagram on this page indicate the tape sizes used for various package types and the basic orientation convention used. Further tape-and-reel specifications can be found in the Electronic Industries Association (EIA) Standard 481. Tape and Reel Packaging Information

### Surface Mount Device (SMD) Tape and Reel—Maxim Integrated

- The reel is made of polystyrene (PS) plastic material and typically coated with antistatic solution.
- The carrier tape is made of standard polycarbonate or polystyrene materials.
- The cover tape is made of polyester material.
- The cover tape uses pressure sensitive or heat activated adhesive.

### Surface Mount—Tape & Reel—Texas Instruments

Applied with precision. About 3M Tape and Reel. Innovative solutions to help improve productivity in the age of electronic components. Advancement of wafer level packaging, molded plastic and a growing demand for even smaller and thinner components requires a comprehensive range of standard and custom cover tapes and carrier tapes.

### 3M Tape and Reel Solutions | 3M United States

Product Tape and Reel Specification GENERAL INFORMATION Many Microchip products are avai lable packed into embossed tape that is wound onto a reel. This document provides the general specifications for such packing. This specification follows the Electronic Components Industry Association standard EIA-481.

### Product Tape and Reel Specifications

This customer service note describes the standard shipping quantity, box quantity, and types such as tape and reel for Micron’s products. Download. Packaging Information. CSN-16: Micron Component and Module Packaging. Customer Service Note (PDF) – 10.13.2020. Explanation of Micron packaging labels and procedures.

### Packaging and Shipping Information—Micron Technology

The “ C ” dimension of Fig. 2 is between flanges of the component reel and shall be 1.5 mm (0.059”) to 8.00 mm (0.315”) greater than the overall taped component width “ W ” (Fig. 1). Where “ W ” dimension is 68.2 mm (2.68”) max.

### Packaging Information—Vishay Intertechnology

Packaging Tape And Reel Information TAPE AND REEL PACKAGING FOR SMD-4 OPTOCOUPERS WITH OPTION 9 Dimensions in millimeters Selected 4 pin optocouplers are available in tape and reel format. To order any SFH6xx6 op tocoupler on tape and reel, add suffix “ T ” after the part number, i.e., SFH6156-3T. The tape is 16 mm and is wound on a 33 cm reel.

### Packaging Tape And Reel Information Vishay

In many sectors and applications today, Tape and Reel has become an important alternative packaging method for trays or tubes. One advantage is that each reel contains more components than a tray or tube, which can drastically reduce your assembly down time. Another is the importance of SMT products arriving to the customer without damage.

### Tape and Reel—PCA

Tape & Reel Packaging Information KEMET offers multilayer ceramic chip capacitors packaged in 8, 12, 16 and 24 mm tape on 7” and 13” reels in accordance with EIA Standard 481. This packaging system is compatible with all tape-fed automatic pick and place systems. See Table 2 for details on reeling quantities for commercial chips.

### Tape & Reel Packaging Information—KEMET

2.1 Tape & Reel † DIN IEC 60 286-3 The components are placed on a plastic tape (carrier tape) made of polystyrene or polycarbonate, with correspondingly shaped recesses in its surface, which is th en sealed with a cover tape (transparent foil).

### Packing—Infineon Technologies

Packaging Information. Our packaging system protects our products from mechanical and electrical damage, and our Tape & Reel and tray packing system are designed for automatic pick-and-place equipment.

### Packaging Support Documentation—Diodes Incorporated

Advantek is the world ’ s leading provider of precision component packaging systems. Learn about the areas in which we protect, shield, and present devices.

### Tape and Reel | Component Packaging | Advantek

Tape & Reel Coining’s tape & reel packaging service is a value-added process of placing preforms and other microstampings onto carrier tape before shipping to customers. Our products are used in this manner to feed automated assembly operations.
