Science is a bane. Science is a bane, but also a boon. Think of it. Diseases can also be cured by using natural methods and instead of using mobiles as information we can use books and while referring to the book we can also have extra information. And people can obviously walk instead of using the vehicle. Science has made people lazy and dependent.

[Is science a bane? | Debate.org](#)

Science is a boon. the purpose of science is to benefit Humanity by Conducting study and research about nearly everything. it is because of Science of technological innovations are possible and the way our living has become, and continuous to become, more sophisticated and convenient.

Selenium resembles sulfur (S) chemically and shares a similar pathway for uptake and translocation in plants. For example, SeO_3^{2-} and SeO_4^{2-} are analogs of SO_3^{2-} and SO_4^{2-} , respectively. Therefore, they can compete with each other in acidic conditions (Golob et al., 2016; González-Morales et al., 2017). Among the Se species, SeO_4^{2-} uses SO_4^{2-} transporters of the root ...

[Selenium in plants: Boon or bane? - ScienceDirect](#)

First of all I am going to assume that boon is in the yes column. Science is fundamentally neutral - whether it is good or bad is dependent upon the people creating it and ultimately using it. The vast majority of science is done for science's sake, for the 'advancement' of humanity and therefore on the whole can be thought of as good.

[Why is science a bane? - Quora](#)

science a boon or bane 1. Science from Latin scientia, meaning "knowledge " [is a systematic enterprise that builds and organizes knowledge in the form of testable explanations and predictions about the universe In an older and closely related meaning, "science" also refers to a body of knowledge itself, of the type that can be rationally explained and reliably applied.
