The Lime Works Summary - eNotes.com

Based in Henley on Thames, Oxfordshire, we are Lime Works. Lime is the basic construction material in old buildings and so it's use is very important in repairs or alterations. It is a natural product made from burnt chalk or burnt limestone. Lime, used in mortars and plasters, allows the fabric of the building to breathe, is flexible, has self-healing properties and is environmentally friendly as it absorbs CO2 in its carbonation process.

Lime UK

The Lime Works: an Art Deco castle in Kent. In 1937, the local water company in Faversham built a water softening and purification plant consisting of two giant concrete funnels filled with lime. While the process works and is still sometimes used, the design of the building was flawed and it was eventually closed down and abandoned. The Lime Works was bought in 2005 and (mostly) converted into an Art Deco-influenced home.
