~~The Philosophy and Practice of Outstanding Early Years ...~~

This book examines the philosophical and theoretical foundations of early years practice, and supports practitioners as they reflect on the collective and personal rationales which motivate and inform their work with young children. Theoretical underpinnings are explored from a variety of perspectives, and are translated into effective strategies for application in a range of early years settings.

The philosophy of education is Janus-faced, looking both inward to the parent discipline of philosophy and outward to educational practice. (In this respect it is like other areas of “applied” philosophy, such as the philosophy of law, the philosophy of science, and the philosophy of medicine, including bioethics.) This
