Operator Certification Program

Certified Water Operators - County Listing. In New York State, individuals working at water treatment plants and/or distribution systems who are responsible for process control/system integrity decisions on water quality or quantity that effect public health are required to hold a valid certification issued pursuant to 10 NYCRR Subpart 5-4.

Certified Water Operators - County Listing

Drinking Water Treatment & Distribution System Operators In 1971, laws and regulations governing the certification of potable water treatment facility operation were enacted. The regulations establish at what level these facilities should be manned, the minimum qualifications for testing at each of the five grade levels, and the criteria for the renewal and revocation of operator certificates.
